前　言

语言能力标准，又称语言能力量表，是对语言能力的等级划分和相关描述，可分为通用语言能力标准和专门用途语言能力标准两种。2007年，《国际汉语能力标准》由孔子学院总部 / 国家汉办正式颁布，对通用汉语教学发挥了巨大的指导作用。而商务汉语作为影响最大的专门用途汉语，商务汉语能力标准的研究和编写工作一直是空白的，这极大地束缚了商务汉语教学的发展，导致教学和语言测试缺乏统一的纲领指导，也无法与国际通行的语言能力标准接轨，影响了商务汉语推广工作的开展。为打破这一瓶颈，经过近三年的努力，《商务汉语能力标准》的研制工作完成。该标准将商务汉语能力分为五级，每个级别都对听、读、写、说、交流五种能力的总体要求和所应完成的交际任务进行了准确、细致的描述。

在研究方法上，我们始终坚持定量和定性相结合的方法，保证了标准的科学性与实用性。在参考国外任务型商务语言考试（主要包括托业考试、商务日语能力考试、商务韩语考试、商务俄语考试等）相关研究成果的基础上，通过专家和目标群体访谈，编制了《商务场景中汉语交际任务调查量表》。接着从雇主、员工、教师、学生四个维度，通过发放大量问卷和海内外多次实地调研获得实证数据，在此基础上进行统计、分析，标定了商务场景中汉语交际任务的级别与难度，最终形成了《商务汉语能力标准》。

本着“放眼国际、立足实际、服务商务汉语国际推广事业”的设计理念，《商务汉语能力标准》在学习、借鉴《欧洲语言共同参考框架（CEFR）》《美国外语教学委员会语言能力分级标准（ACTFL）》《加拿大语言标准（CLB）》等国际知名量表的同时，吸收了大量国内外商务汉语教学的最新成果，既能与国际通行标准接轨，又能满足商务汉语教学、考试和推广工作的实际需要。

《商务汉语能力标准》在研发和编写过程中得到了孔子学院总部 / 国家汉办、对外经济贸易大学、中国人民大学、北京大学、北京语言大学、浙江义乌工商学院、希腊雅典商务汉语孔子学院、美国得克萨斯圣安东尼奥分校孔子学院、沙特阿拉伯阿美石油公司，以及中国教育部考试中心、高等教育出版社、汉考国际等机构和众多专家的帮助和鼓励，在此一并表示衷心的感谢！

使用说明

一、为服务商务汉语学习者，突出《商务汉语能力标准》（以下简称《标准》）在真实商务或一般工作情境中的实用性，给予商务汉语考试效度有效支持，符合教学适用性和《标准》经济性，一些与实际交际活动联系不紧密的任务未予收录。以合同为例，在现实生活中，合同的格式通常已固定，只是其中的关键内容有所不同，如合作双方的信息、合作期限、利益分配等，因此无需要求商务汉语学习者撰写整份合同。基于以上考虑，在设计与合同有关的任务时，仅要求考生能够查找其中关键信息。

二、将“听、说任务”与“交流任务”相区分。如果听到或说出一些语言内容而无需对方做出回答时，即可定义为单向的“听、说任务”；如果需要对方做出回答，则定义为双向的“交流任务”。

三、采用任务与题材相结合的方式进行交际任务的标定。读、写的任务根据题材不同应标定为不同的任务。因此，在设计标准时将商务活动中常见的读、写题材进行分类，并针对不同的题材设计不同的阅读、书写任务。

四、为了明确特定语言任务对商务汉语学习者的难度，将与商务汉语密切相关的被试者划分为雇主、员工、教师、学生四类进行问卷调查。根据调查的统计分析结果及反馈意见，研发团队将《标准》中涉及的任务按难度从低到高进行了排列，划分为五个等级。这样的分级处理对于商务汉语考试的设计研发、商务汉语教材的编写以及教学活动的开展都具有实际的参考意义。

五、《标准》中不同等级的同一技能的任务举例存在重复的现象。在这里试举例进行统一的说明。以一级、二级、三级“听”技能中的题材“介绍”为例。其任务举例均为“听懂他人关于个人信息的简短介绍，如家庭成员、爱好、兴趣和周末安排等”。具体到一级，其任务所听到的语言材料可以是“我是这家公司的经理”。二级任务所听到的语言材料难度增加，可以是“我是这家公司的经理，我来公司工作已经五年了”。三级任务听到的语言材料，难度会进一步提高，可以是“我是这家公司的经理，我来公司工作已经五年了，我主要负责新产品的开发工作”。为了给商务汉语教学提供更为灵活的空间，未对任务列举进行一一说明。

Preface

Language ability standards, also called language ability scales, which is the grading and description of language ability, can be divided into two types: the common language competency standards and language for special purpose standards. In 2007, The *Chinese Language Proficiency Scales For Speakers of Other Languages* promulgated by Confucius Institute Headquarter/*Hanban* becomes an important guideline for Chinese teaching. However, even though Business Chinese is now seen as the most influential language of special purpose, the blank of research and compilation of its standards are hindering the development of Business Chinese Teaching seriously, and lead to a lack of unified program guidance for teaching and testing, which doesn't conform to international language ability standards. It has undermined the promotion of Business Chinese. The accomplishment of *Business Chinese Language Ability Standards*, with nearly three years' efforts, breaks the bottleneck. The standards classify Business Chinese ability into five levels, with accurate and detailed description of overall requirements and essential communication task in terms of listening, reading, writing, speaking and communication of each level.

In research methods, we adhere to the combination of quantitative and qualitative methods to ensure the standard to be scientific and practical. In reference to the research achievements of foreign task-based business tests (e.g. TOEIC, Business Japanese Test, Business Korean Test, Business Russian Test, etc), through interview experts and the target groups, we created *The Questionnaire of Chinese Communication Tasks on Business Scene*. Then the researchers collected data from the four dimensions including employers, employees, teachers and students, by distributing a large number of questionnaires and surveying home and abroad. Empirical data are then analyzed to demarcate the levels and difficulty of Chinese communication tasks on business scene. Finally the *Business Chinese Language Ability Standards* are compiled.

In accordance with the concept of design "focus on the international, based on the actual, to serve Business Chinese promotion", *Business Chinese Language Ability*

Standards references some universal standards, such as *Common European Framework of Reference for Languages* (CEFR), *American Council for the Teaching of Foreign Languages Proficiency Guidelines* (ACTFL), *Canadian Language Benchmarks*(CLB), etc. It absorbs numerous latest achievements of Business Chinese teaching home and broad to meet the internationally prevailing standards and to satisfy the practical needs of teaching, examination and promotion of Business Chinese.

Last but not least, we'd like to extend our sincere gratitude and appreciation to Confucius Institute Headquarter/*Hanban*, University of International Business and Economics, Renmin University of China, Peking University, Beijing Language and Culture University, Yiwu Industrial and Commercial College, The Business Confucius Institute in Athens University of Economics and Business, The Business Confucius Institute in University of Texas at San Antonio, Arabian American Oil Co., National Education Examinations Authority of People's Republic of China, Higher Education Press, Chinese Testing International Co., Ltd for their support during the research into and compilation of *Business Chinese Language Ability Standards*.

Instructions

1. To better serve the learners of Business Chinese and highlight practicability of *Business Chinese Language Ability Standards* (hereinafter referred to as *Standards*) in business and work scenario, to give effective support to the validity of Business Chinese Test (BCT), and to conform to the applicability of teaching and economy of the "*Standards*", some tasks which aren't closely linked with actual communicative activities are excluded. Take "contract" as an example, usually the format of the contract follows a fixed template while the key content varies (e.g. partner's information, cooperation period, profit distribution). Hence, there is no need to request the learners to rewrite the whole contract. Because of the above consideration, when tasks related to the contract are designed, students are only required to find the key information.

2. We distinguish between "listening, speaking tasks" and "communication tasks". In situations which may be defined as a one-way "listening, speaking task", there is no need for the learner to respond to the utterance; if there is a response, the situation is then defined as a two-way "communication task".

3. The calibration of communicative tasks is based on the combination of tasks and subjects. The tasks of reading and writing should be demarcated differently according to different subjects. Therefore, reading and writing subjects have been classified, and different reading and writing tasks have been designed accordingly.

4. In order to identify the difficulty in specific language use that the learners of Business Chinese may encounter, test takers were divided into four categories: employers, employees, teachers and students. According to the survey statistics and feedback, the research and development team rank the difficulty of tasks into five grades, from low to high. The grading makes reference significant to the research into Business Chinese Test, the compiling of the Business Chinese textbooks and actual teaching activities.

5. The tasks involving a same language skill used on different levels may occur in a repeated theme where we have given a unified explanation. Take *Introduction* in listening part from *Level 1, 2 and 3* as an example, the task in these parts is the same, e.g.

"Can understand brief introductions about personal information (e.g. family members, hobbies, interest and weekend plan)", whereas the language materials are different on a given level. So does the degree of difficulty. E.g. "I'm the manager of this company." in *Level 1*; "I'm the manager of this company. I have been working in the company for five years." in *Level 2*; "I'm the manager of this company. I have been working in the company for five years. My work is mainly responsible for the development of new products." in *Level 3*. In order to provide more flexibility for the teaching practices, we have not provided more detailed explanation in that regard.
